

3D-wave ionograms

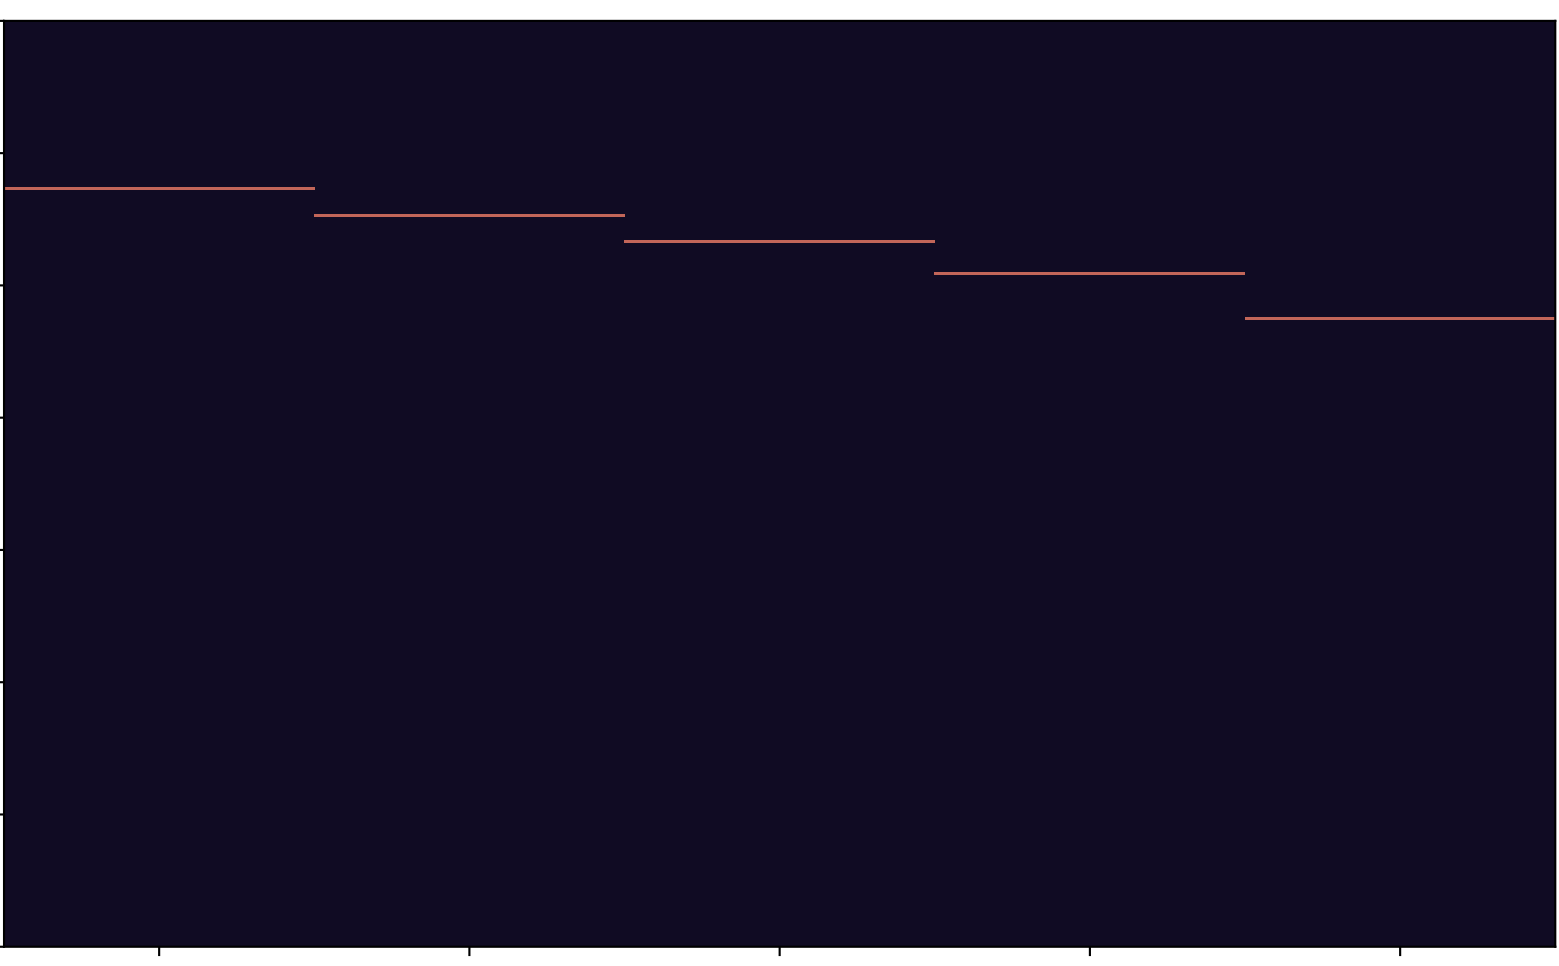

Synthetic ionosphere · 8.0–8.4 MHz window in 100 kHz steps · 1 km range bins · all accepted O/X returns

O mode X mode

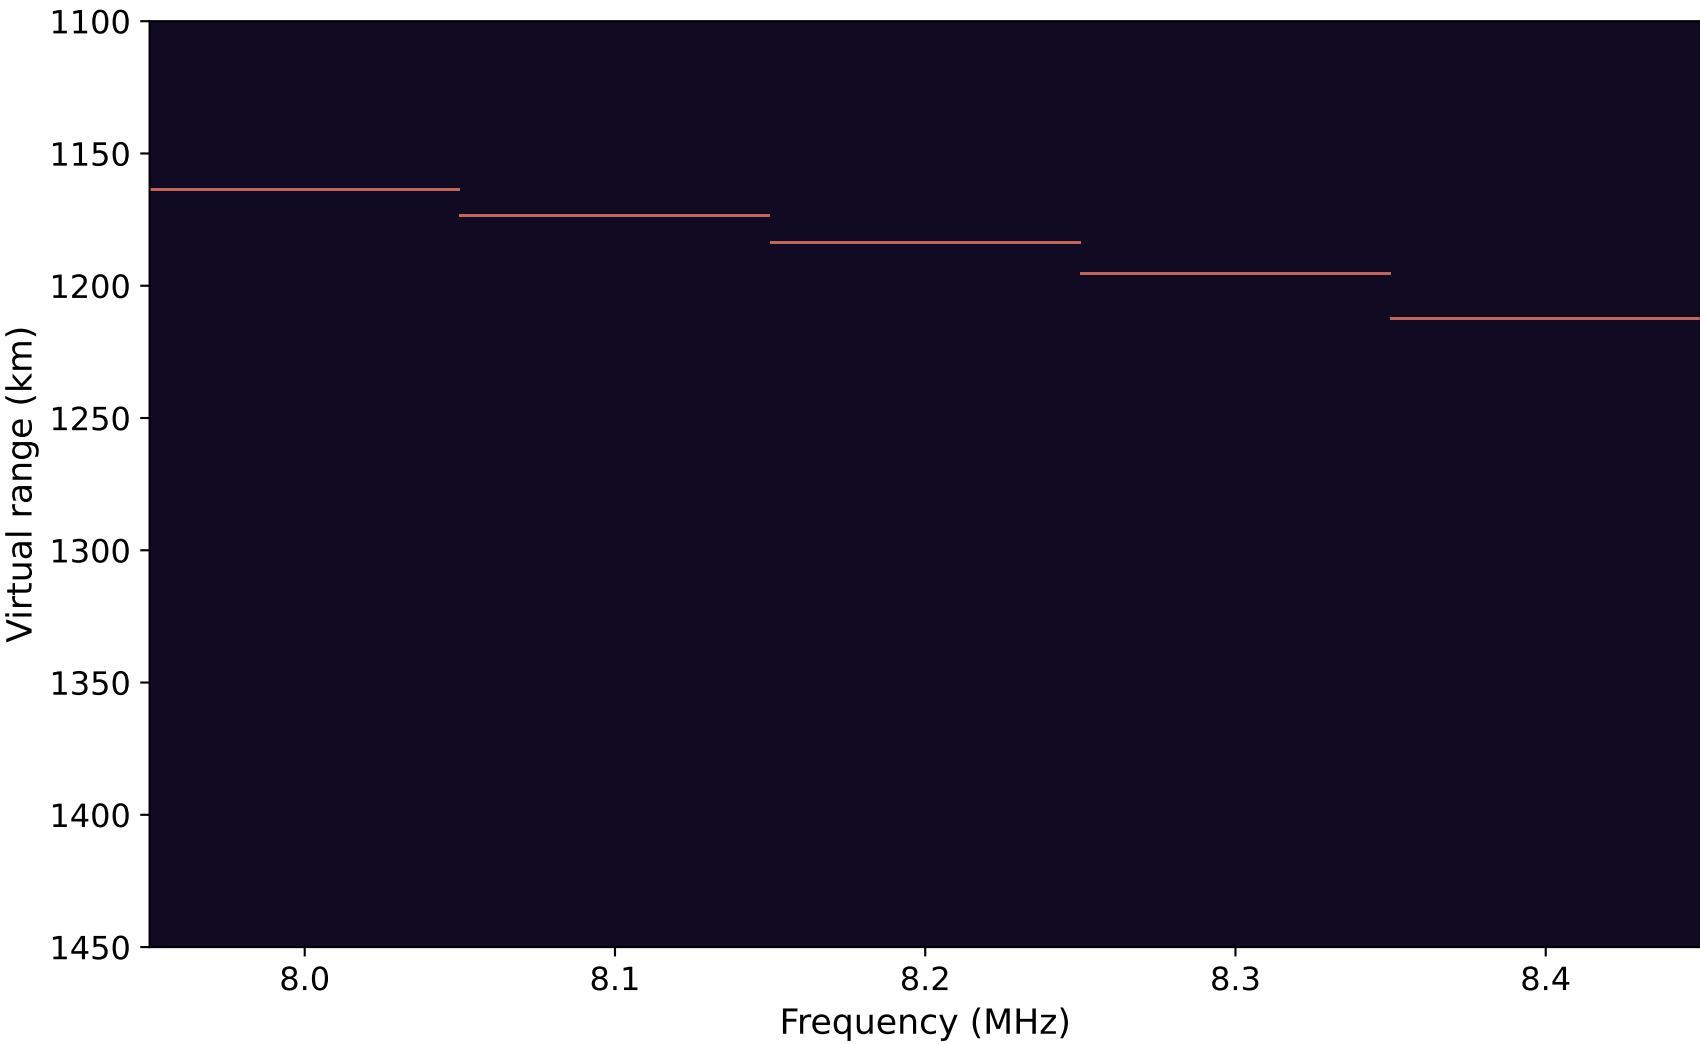

A Original az/el · 10 returns · 75.8 s
168 anchor / 288 full directions · reference

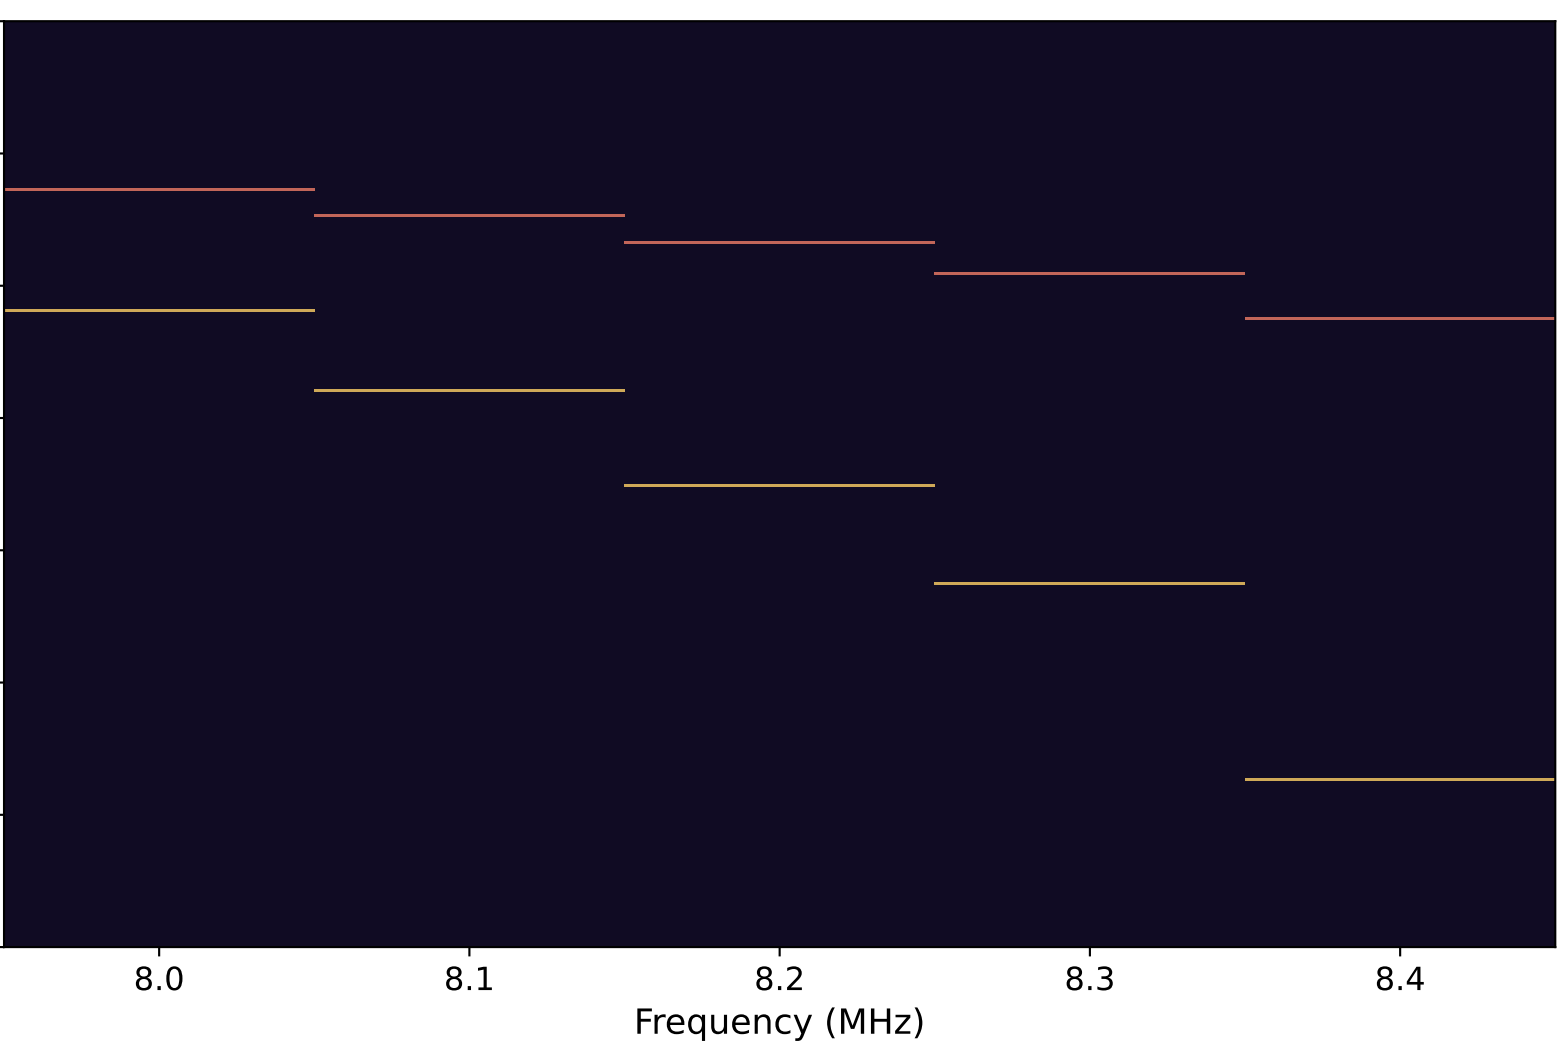

B Guarded full outer fan, 0 extra seeds · 5 returns · 48.0 s
174 anchor / 288 full directions · 5/10 reference returns matched

C Guarded half outer fan, 0 extra seeds · 5 returns · 45.1 s
105 anchor / 162 full directions · 5/10 reference returns matched

D Guarded half outer fan, 4 extra seeds · 10 returns · 70.2 s
105 anchor / 162 full directions · 10/10 reference returns matched

Homing gate: 1,000 m throughout. Match: same frequency and mode, virtual ranges within 1 km; coincident returns may blend. Timings cover both tracing modes; shared grid setup excluded.
